

Design SMS Sign-Up Form: Script to enable SMS Sign Up Form overlay

Your sign-up form is the key to building your valuable mobile subscriber database and generating sales through text message alerts. Your website is the perfect place to promote your form. Display your sign-up form to website visitors by adding below provided script.

Your Form will appear over page where you place your embed code.

- Use the http link any where you want to embed your form on an unsecure page of your website.
- Use the https code for placement on any of your secure, pages.

```
<html>
<head>
<title>Test Code For Sign up Form </title>
</head>
<body>
<a onclick="document.getElementById('optinDivId').style.display = '';" ></a>
<script type="text/javascript" src="http://teststorename.mshopper.net/optinScript.js?scriptdata=true"></script>
<script type="text/javascript" src="http://teststorename.mshopper.net/optin.js?optinsource=pcsite&visible=true"></script>
</body>
</html>
```
