

Custom Pages: How To Design Custom Pages

What is Curated Page?

Curated commerce helps shoppers discover products based on their personal preferences. The profile is usually based on images. A retailer's items are then Curated and offered. Curated commerce is often compared to the online version of shopping in exclusive and personal boutiques.

Curated sales pages are a powerful tool in e-commerce. A Curated sales page can be created by simply selecting a collection of products and displaying them on a single sales page. They are generally used in themes related to limited time events, holidays, current trends and more. By creating Curated sales in your mobile store, you are making it easy for shoppers to find what they are looking for related to the aforementioned limited time events, holidays, current trends, etc. To further enhance your Curated sale, adding promotional banners to your mobile store 's home page, highlighting the Curated sale, will help drive your mobile visitors to exactly where they need to be.

What is Standard Page?

Creating new custom page for your mStore is very easy These can tell shoppers about contacting your business, promotions, store locations, shipping policies, returns, and other important shopping topics.

How To Add New Custom Page?

1) To Add new custom page, select 'Create New Custom Pages' hyperlink, you will be redirected on custom design page tool.

2) Depending upon the page type you want to create, select the page type from 2 available options such as;

i) Standard Page: This is a simple page just like other mStore pages, here you can add page content along with display settings.

ii) Curated Page: It helps shoppers discover interesting products based on their personal preferences, it also allows you to add products, Google category and counter time.

3) Name your page: The name provided in this field will be shown at the mStore side; Homepage/ Universal Navigation page.

4) Choose start and ending times for your custom pages, Use the below-provided selectors and set valid start and end sate for your custom page

Note: Please note that time will be treated as per US central time zones.

5) Show page in mStore, you can display or hide custom page on your mStore using Show/Hide toggle buttons

6) Select Display Type from available options, you can display your custom page on Universal navigation page, Home Page or on both pages

7) Show mStore page header: You can also manage display setting for mStore page header using
